### **Master Halco Teams with Contractor to Install Fence in Haiti**

ORANGE, Calif. — The effects from the recent earthquakes in Haiti have been devastating. The Haitian people are in need of the most basic of services.

The University of Miami is sponsoring a temporary hospital, called Project Medicare, in Haiti. A Master Halco customer in Florida, Carlson Fence Company, was contacted by the university to install a fence around the temporary hospital.

Mark Davis with Carlson Fence Company reached out to Master Halco for fence materials. Both Carlson Fence and Master Halco were on-board with donating time and materials to the cause. Master Halco donated 1500 lineal feet of chain link fabric for Carlson Fence to use on the project. This is just a small way to show a glimmer of hope to the people of Haiti.

*Rolls of chain-link fence destined for Haiti.*

*Project Medicare is the temporary hospital sponsored by the University of Miami.*

*Carlson Fence and Master Halco provided labor and materials to help secure the hospital.*

*Shown is the University of Miami's Project Medicare hospital in Haiti, surrounded by fence from Master Halco.*

Master Halco branches carry a vast selection of fencing solutions, including ornamental iron or aluminum, chain link, decorative wire, vinyl, wood & wood composite, plus related accessories.
