MINNESOTA VINYL AND ALUMINUM SYSTEMS, INC. EXPANDS ITS MARKET TO INCLUDE A RAPIDLY EXPANDING REGIONAL WHOLESALE DIVISION!

MVAS, a 1993 start up company based out of Shakopee, Minnesota has become a household name in the Twin Cities "Maintenance Free" building industry. Wendy Anderson, owner, started MVAS after concluding there was a void in the construction industry when it came to exterior fence, deck and railing products. Fifteen years ago at the company's inception builders were still using more traditional "high maintenance" iron and wood products in their construction. Today, maintenance free is their first choice and MVAS has become the industry leader in both the introduction and the expansion of these products!

In the last year, MVAS has changed its venue and has developed a regional wholesale presence in the market place. Although we continue to be a full service company offering sales, service and installation of both Aluminum & Vinyl fence, deck & railing; we now offer a full range of distribution opportunities for other growing companies. Currently our distribution network spans from Minnesota to Wisconsin, Iowa, South Dakota and North Dakota, Nebraska, Wyoming, Montana, Kansas, Illinois, Missouri and Indiana. This wholesale expansion will provide other companies an opportunity to deliver maintenance free products to their customers while gaining an edge in the construction market.

Currently, our wholesale expansion program includes the following offering:

- ☛ STAR Aluminum Railing (commercial & residential)
- ☛ Industrial PVC Fence
- ☛ Aluminum Fence (commercial & residential)
- ☛ EON Pro Series Fence

In addition to the broad product selections, companies will have an opportunity to earn an exclusivity in their region.

Please contact Jim Buker, Regional Sales Manager at 1-800-566-0732 or click on www.mvas.com to view our web page.

Thank You!
