FOR IMMEDIATE RELEASE

TimberTech® DeckLites® Named a Best New Product for 2009

DeckLites is only outdoor lighting product chosen for annual list

Wilmington, OH – September 30, 2009 – TimberTech's DeckLites® is named one of *Professional Builder* magazine's "100 Best New Products" of 2009 and is featured in the magazine's September issue.

"DeckLites really strikes a chord with homeowners. Combining safety with a great 'wow-factor,' the system has become a natural addition to our decking products – providing our dealers and contractors with a strong added value product," said TimberTech senior marketing manager, Cheryl Copeland. "*Professional Builder* naming DeckLites as the only outdoor lighting product on the Top 100 Best New Product list for 2009 supports its uniqueness in the market."

As one of TimberTech's newest products, DeckLites' incorporation of post cap lights, baluster-mounted accent lights, post-mounted accent lights and stair riser lights provides homeowners with a completely customizable lighting solution for a variety of design applications.

Intended to compliment TimberTech's composite railing lines, RadianceRail® and Ornamental Rail, the low-voltage lighting system provides ultimate flexibility in design. Additionally, the system works with FenceScape®, TimberTech's composite fencing, which is ideal for adding accents to landscaped areas or to create a decorative border around the yard.

The "100 Best New Products" award recognizes innovative products from manufacturers excelling in research and development. Select industry editors annually choose the quality products appearing on the list.

About TimberTech

TimberTech is a leading manufacturer of composite decking, railing and fencing products for residential and commercial applications. The company offers a wide range of durable, low-maintenance outdoor solutions in an unmatched selection of colors and styles.
